

# The Return of Micro Scale Racing!

1/18 Scale Racing is returning to Indy RC on April 8<sup>th</sup>

Racing Starts at 7PM Tuesday Nights.

The timing is Right and the Price is right. Its time for us to bring back 1/18 scale racing to Indy RC. Beginning April 8<sup>th</sup> we will dedicate Tuesday Nights to Micro Scale racing only. Although there have been and are currently several versions of micro scale trucks & buggies in the marketplace (1/16 scale, 1/14 scale and 1/18 scale), based on price and performance, we have decided to feature the new 1/18 scale Dromina Short Course Truck as the primary class for **STOCK** racing. It's inexpensive at \$99.99 retail and offer most of the features racers demand (4-WD, 2.4 radio, aluminium upgrades, big bore oil filled shocks, complete ball bearings, and waterproof electronics). Limited structural upgrades will be permitted (aluminum Dromina chassis parts, your own radio Radio, etc.) but no other performance upgrades will be allowed in the STOCK Class 9 (i.e. brushless motors, different tires or lipo batteries). All other manufactures' 1/18 micro trucks and buggies, and even modified Dromina vehicles, will race in separate Open classes. Tech in the Open Classes will be limited only to Two (2) cell 1,600 Mah Lipos,

~~bodies and a 4,000 KV motor limit. The Race Director will have discretion on all other upgrades. See flyer below.~~

Proposed Classes:

- 1.) Stock--The Dromida 1/18 Scale Short Course Truck
- 2.) 1/18 Scale Open Wheel-Open Class (Limited Tech)
  - Dromida 1/18 Scale Buggy, Stadium Truck or Monster Truck
  - Team Associated RC18T, B or MT (versions 1 or 2)
  - Duratrax Vendetta Buggy or Stadium Truck (Anderson knockoffs allowed)
  - Losi 1/18 mini-T, Desert Truck, Torment SCT & Ruckus MT
  - HPI 1/18 scale mini Recon
- 3.) Traxxas 1/16 Scale & Losi 1/14 Scale mini-8ight (Limited Tech)
  - Open Wheel E-Revo (Brushless) & Summit
- 4.) Rally Cars (Brushed Titan 12 Motor) & 1/18 Scale La Trax (Limited Tech)
